## **Sabra 24/7** – a Mobile Solar Powered Generator

*Delivering Power whenever you need it wherever you want it*

'Al Hadeshe Green energy' developed innovative concept for empower military and emergency applications 24/7 with renewable energy, for example: surveillance systems, command shelters, forward operating bases (FOBs), HLS, disaster relief.

In the recent years, there is an increasing demand for transportable, fast deployed, renewable energy solutions, because of the frantic fuel prices and the complex logistics involved with refueling the traditional diesel generators in rural areas.

What is Unique about **Sabra 24/7** ?

- 100% stand alone system– no dependency on diesel or fuel as power source
- High level of reliability in power supply 24/7.
- Highly durable to meet the most extreme external conditions
- Simple to transport at off-road conditions – the system is loaded to compact trucks and on its way to customer sites in no time
- Simple deployment – all it takes is 30 minutes to have the system up and running at full capacity. The same time it takes to reload it back on the truck, to a new location.
- Green solution based on solar power and delivers clean and quiet power
- Cost Effective –by taking advantage of solar energy the cost of power is dramatically reduced. On-going maintenance cost is close to zero.

**Sabra 24/7** is a flexible modular solutions. The system is adaptable to different power and environment requirements and can be easily customized to fit different requirements.

**Sabra 24/7** - mobile solar generators, offers you a high value solution for Power supply, whenever you need it wherever you want it.
